

## Submittal Requirements for Patio Covers

*Patio structures shall comply with the 2010 California Building Code.*

Provide three (3) copies of:

- Plot plan showing property lines
- Location of the proposed structure and all other structures on the property.
- Exterior dimensions of the new structure including height, and roof overhangs.
- Set-back dimensions measured from the furthest projection of the new patio structure to the, property lines, all accessory structures and the house in cases were the patio structure is detached.
- Section drawings
- Cut through the new construction and partial of the existing structure (if attached).
- Drawing to include size and spacing of all members, attachments to existing building, footings, etc.
- Floor plan drawn to scale. The floor plan must show, if applicable, the location and sizes of:
  - Doors
  - Windows
  - Stairs and landings at doors
  - Electrical outlets
  - Lighting fixtures and controls.
  - Existing window and door sizes of the adjacent house.
