March/April 2005

DEAR FRIENDS

By: Mac Kaiser

On behalf of the City of Brentwood Parks and Recreation Department, and especially on behalf of myself and Joanne, we would like to thank the 2004 Senior Citizens Board of Directors for all their hard work, time, dedication, and tireless energy for the great year of service!

From the inception of this non-profit group in the spring of 2003, these dedicated individuals have accomplished an incredible amount of work in a very short time. We hope that each individual will take pride in realizing their wonderful contribution to "adding joy to the lives of seniors" here in Brentwood and the surrounding area.

Be sure to thank these individuals when you see them for their outstanding efforts.

Next, we want to congratulate the incoming 2005 Board of Directors. Under the guidance of your new president, this year volunteers have as much, if not more energy and look forward to serving the membership during the coming year.

Please be sure to share your views with your Board of Directors. They are interested in serving your interests and needs, but to do so, they must hear from you, the membership.

The Club also

needs volunteers for a variety of projects throughout the year. So if you can help out, even if it's just here and there, please let the Board know. Every bit helps and of course, is always appreciated.

So get ready for another great year! It should be a fantastic one.

Congratulations to Tom and Alice who recently announced their engagement!
